Instructor: Samuel P. Wilcock, Ph.D.
Office: F323 Phone: x7092 E-mail: SWilcock@Messiah.edu

Education
B.A., Messiah College, Major: Mathematics (minor: Statistics)
M.S., Virginia Polytechnic Institute and State University, Major: Statistics
Ph.D., Virginia Polytechnic Institute and State University, Major: Statistics

Meeting Times: MWF 10:20 - 11:20 (F141)

NOTE: We will not have class on Friday, 30 April 2010, because of the School of Mathematics, Engineering, and Business Scholarship Day. You will be encouraged to attend some of the talks and presentations in place of class that day. More information will be given closer to the event.

Prerequisites:

• STAT 292: Statistics for the Mathematical Sciences II
• MATH 261: Linear Algebra

Material covered in previous courses will not be presented again in this course. From time to time the professor will note where topics have been covered before and proceed with using the concepts. If you do not remember how to do something that the professor assumes you know, it is your responsibility to review these topics outside of class. While only STAT 292 is officially listed as a prerequisite, we will use some of the ideas from MATH 261 since that is a requirement of the mathematics major.

Office Hours: M: 3:00 - 4:00; T: 1:00-4:00; W,F: 9:00-10:00

Text: None.

Note: While there is no official text, I will assume that you still have access to Jay L. Devore’s Probability and Statistics for Engineering and the Sciences in whichever edition you used in STAT 291 and 292.
